

## Save Money by Using a Preferred Pharmacy

Whether you are on a plan that has copayments for prescription drugs or an HSA-compatible plan that offers a discounted price prior to the plan deductible, you will save money by using one of the five preferred pharmacies below.

- ❖ **Walgreens**
- ❖ **Walmart** (including Sam's Club Pharmacy)
- ❖ **Albertsons** (including Tom Thumb, Market Street, Randall's, United Pharmacy, Amigos, Safeway, Vons, Super Saver and many other grocery stores under the Albertsons corporate banner)
- ❖ **HEB**
- ❖ **Access Health (a group of independent pharmacies)**

You are not required to use these pharmacies, but you will receive better pricing if you do. Either way, please be sure to use a pharmacy that is in your pharmacy network. A list of all participating pharmacy locations can be viewed at [www.BCBSTX.com/member](http://www.BCBSTX.com/member).

**NOTE: CVS Pharmacies (stand alone or in Target) are NOT part of your plan network, and prescriptions purchased at CVS will not be covered on your Blue Cross Blue Shield of Texas plan.**
